

ENVIRONMENTAL COMMISSION

STYROFOAM RECYCLING IS HERE!

DPW Garage, 880 Somerset St.

Mon. - Fri., 7 AM - 3:30 PM

Drive up and drop your foam in the bin!

Please follow these rules to ensure a successful program:

- Only clean, white #6 Styrofoam is acceptable. Foam should snap and break when bent. If it bends and doesn't break, it is not the correct type of foam and can be thrown away.
- No food-related foam is acceptable (like takeout containers and foam trays).
- All stickers, tape, and writing must be removed.
- Clean white Styrofoam coolers that were used to ship frozen meats, fish and other foods, or medicine are allowed.
- No colored foam.
