

PSE&G prepared for Nor'easter

PSE&G is prepared for the storm system hitting the region today through tomorrow morning, bringing with it the potential for heavy rain and strong winds.

In anticipation of the storm, PSE&G has ensured that all available personnel are ready to respond. We have also ensured that additional supplies, including poles and transformers, are on hand.

PSE&G urges its customers to be cautious if they see downed lines. Downed wires should always be considered "live." Do not approach or drive over a downed line and do not touch anything that it might be in contact with.

To report downed wires or power outages, call PSE&G's dedicated, toll-free Business Solutions Center at 1-855-249-7734 (1-855-BIZ-PSEG). You can also report power outages and view the status of an outage by logging in to *My Account* at pseg.com, PSE&G's mobile-friendly website.

PSE&G offers a number of ways to stay in touch and stay informed before, during and after a storm. These tools can be found at pseg.com in the "Storm Center," under "How you can stay connected."

- Sign up for *My Account* and bookmark the mobile-friendly homepage on your smart phone so it's easy to report outages and check restoration progress. If you are already registered for *My Account*, be sure that the phone numbers in your profile are up to date.
- To report power outages via text message, and receive outage updates by text and email, sign up for *MyAlerts*.
- Updated every 15 minutes, PSE&G's online "Outage Map" displays the location and status of power outages in PSE&G's service territory.
- PSE&G's Twitter and Facebook pages also keep the public informed about our restoration progress. Sign up as a follower to monitor restoration process.
